## Money Going Up in Smoke

Instructions: If each pack of cigarettes costs $\$ 6$, calculate how much a smoker would spend in a year if he or she smoked the amounts listed below. Then write down what you might do with each amount of money.

| 1 Pack Per Week | Half a pack a day | 1 pack a day |
| :---: | :---: | :---: |
| Total for year: | Total for year: | Total for year: |

1. With the amount of money from a pack of cigarettes a week, I could:
$\qquad$
$\qquad$
$\qquad$
2. With the amount of money from a half a pack of cigarettes a day, I could:
$\qquad$
$\qquad$
$\qquad$
3. With the amount of money from a 1 pack of cigarettes a day, I could:
$\qquad$
$\qquad$
